### Language:

English: ★★★★★

French: ★

### Interests:

Windsurfing

Cats

# Software Developer

## About Me:

Hi, my name is Karol Janowski. In 2022 I changed my career path from tax corporate lawyer to java backend developer and become a part of a second edition of Zajavka project made by Karol Rogowski and Bartek Borowczyk which is by far the most complex and advanced java course on polish market ever made. I'm also a big fan of CLI tools, terminal customization and task automation with Python/Bash. After hours you will probably find me windsurfing/foiling in Rewa-Poland or playing with my cat 🐱.

## Education
